FINISH: The music slows towards the end; you will be dancing wall 7 during beats 19-24.

Slow down with the music and you will finish facing the front.

Don't syncopate the step forward on right. Instead replace with a large step forward on right and drag the left toe up behind the right foot.

Special thanks to Joy and Coral who dance with me on Tuesday evenings for their honest comments, creative input and for letting me "test drive" this one on them.
