39 Step left foot forward while raising joined palms overhead 40 Hitch right knee slapping both palms down onto it (allow hands to separate), KIAI

/Some of the moves, although modified, subdued, and unspecific, are obviously directed at causing injury to an attacker in a self-defense situation. Anyone who finds this distasteful should pursue another dance

CROSS STRIDE, UNWIND/SURVEY, STEP RIGHT FOOT TO RIGHT, BOW

- 41 Long step right over left (will lower body somewhat)
- 42 44 Slowly unwind a full turn to front on balls of both feet allowing your head/eyes to precede your body as it turns (to see that no one is still a threat). Upon completion, your left leg will be across your right leg
- 45 Step right foot to right (about 12-15 inches to the right of the left foot)
- 46 Slide left foot to right foot
- 47 Bend forward slightly at waist tapping palms to side of thighs (keep head/eyes to fron)
- 48 Slide left foot to left as you straighten up, bringing fists to front of waist with palm in

REPEAT

/This dance is a "compromise" to make Karate moves "do-able" to non-martial artists. It could obviously be more stylish by alterations and additions by those who are somewhat familiar with actual Karate moves in their own styles.
